4

Screw bottle into connector.

a d f g h

5

If the handle components have been disassembled, place the oval shaped base of the stem into the diaphragm.

6

Make sure the oval shape is lined up correctly in the diaphragm.

Correct

Incorrect

Place diaphragm and stem into pump handle and press down firmly around entire edge to ensure proper seal.

Insert stem of handle assembly into opening on connector. Make sure that the stem snaps in.

## V Pumping

*Be comfortably seated and relax. Use a footrest, when pumping or when feeding your baby. Elevating your feet puts you into proper sitting position to avoid stress on the lower back and perineum.*

Center your breastshield over your nipple.

*Do not tilt or overfill bottles when pumping.*
